60/0 wide x 49/0 deep
2,955 sq. ft.

"A truly revolutionary design that packs something for everyone in a tidy efficient package. The oversized great room offers all the space, and volume today's homebuyer has come to expect. The two story great room can also be enclosed to gain a large upper floor bonus room. The master suite on the main floor is convenient, private and well-appointed. A four car garage is even a possibility here."
